Plan 2 offers an expansive two-story layout with flexible spaces designed for both everyday living and entertaining. From the welcoming front porch, enter into a versatile flex room that can easily become a home office, media room, or additional lounge. Farther inside, the kitchen takes center stage with a large island, generous storage, and a walk-in pantry, all opening to the great room. Just beyond, the covered patio creates a natural extension of the main living space. A junior primary suite is privately located on the first floor, complete with its own bath and walk-in closet. Upstairs, a spacious bonus room provides another comfortable gathering area. The primary suite features a generous walk-in closet and private bath, while two additional bedrooms, another full bath, and the laundry room complete the second floor. Plan 2 Highlights: Welcoming front porch Junior primary suite with private bath and walk-in closet Large kitchen island with walk-in pantry Open kitchen and great room Covered patio for outdoor living Primary suite with generous walk-in closet Open-to-below design Upstairs laundry room 2-car garage plus golf cart storage
