There's a lot to love about Plan 3's beautifully designed floor plan, offering 1,092 sq. ft. of thoughtfully crafted living space. The first floor features a private office adjacent to a two-car tandem garage, providing the perfect balance of work and home life with its separation from the main living areas. Head upstairs to the bright and inviting main living area, where a spacious great room flows into a versatile flex room and a gourmet kitchen. The kitchen is appointed with full-overlay, frameless flat-panel contemporary black cabinetry with knobs, white quartz countertops with a designer upgraded 6" backsplash, and Samsung stainless steel premium appliances.

This plan comes with custom designer paint throughout the living space. Down the hall is a generously sized primary bedroom suite complete with a stunning, spa-like bathroom. Just outside the living room, a private deck offers the perfect spot to enjoy your morning coffee or unwind in the evening.
