Welcome to Homesite 6 at Parkton, an impeccably designed two-story home boasting 2,411 sq ft of contemporary elegance that will be move-in ready by June!

This home includes an upgraded electrical package, Swiss Coffee cabinetry, and a front door that opens to a serene tree-lined view created by the natural split between two neighboring communities, offering added privacy. A covered outdoor patio extends the living space for year-round enjoyment.

The first floor features an open living area connected to the dining room and kitchen, complete with a large island, walk-in pantry, and patio access. A first-floor bedroom with a nearby full bath provides flexibility for guests or a home office, along with a two-car garage and extra storage.

Upstairs, the primary suite includes a bedroom, separate tub and shower, and a walk-in closet, while two additional bedrooms—each with their own walk-in closet—share a dual-sink bath. A central laundry room, linen storage, and a small coffee bar add everyday convenience.

Homesite 6 offers open living spaces, private bedrooms, and practical storage throughout.
