Plan Three at Willow highlights plentiful space and possibilities. On the main level, an open-concept layout features a large great room and a modern, well-appointed kitchen. This plan, always an end unit, features side yards that are the perfect place to let your furry out to run around, enjoy a morning coffee or plant an herb garden. Upstairs, a luxurious primary bedroom and bath, plus an additional two bedrooms and bath, offer options for the whole family. Best of all, a spacious loft space — ideal for working out or working from home — completes the second floor.
