Homesite 18 at Liberty Park is a beautifully designed 2,725-square-foot Craftsman home offering four bedrooms, two baths, covered outdoor living, an enclosed bonus/media loft, and a spacious 3-car garage. Designed for both comfort and flexibility, the main level features the primary suite alongside three secondary bedrooms, while the second floor provides a private retreat that's perfect for entertaining, relaxing, or hosting overnight guests.

A welcoming front entry opens to a thoughtfully arranged foyer, where two secondary bedrooms and a full bath are situated near the front of the home, creating separation from the main living spaces. The open-concept great room flows seamlessly into the dining area and kitchen, where a large center island, walk-in pantry, and direct access to the covered outdoor living area make everyday living and entertaining effortless. Privately tucked away, the primary suite offers a peaceful retreat with a spacious walk-in closet and a well-appointed en-suite bath. Just off the 3-car garage, the mudroom and utility room create a functional everyday entry designed to keep life organized.

Upstairs, the enclosed bonus/media loft provides a versatile space for movie nights, gaming, a home gym, or an additional living area. Bedroom 4, complete with its own walk-in closet, adds flexibility as a guest suite, teen retreat, or private home office. Designer-selected upgrades throughout the home enhance both style and functionality, including a coffered ceiling in the primary suite, built-in upper and lower cabinetry at the primary suite entry, an optional transom window in the dining area, a mudroom bench, and a convenient man door from the garage.
